www.kolejita.edu.my

Certificate In Patient Care Assistance

This program trains individuals to provide basic patient care for Three (3) months. Students learn to keep patients comfortable, provide basic care and assist registered nurses. A certified patient care is the vital link between a patient and a medical staff or facility. Students will learn four (4) modules which are Care Skills, Communication, Care Support and Activity of Living Patient (Practical Skills). Students will participate in classroom study and clinical opportunities.

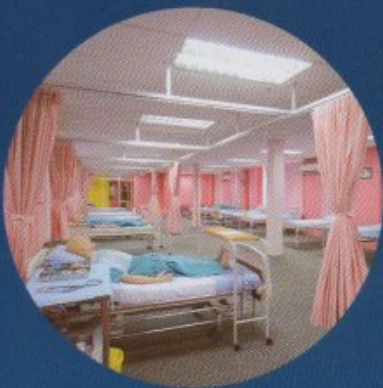

Entry Requirement:

Pass in Sijil Pelajaran Malaysia (SPM/SPMV) includes pass in Bahasa Melayu, Bahasa Inggeris and Sejarah.

Interested In Nursing Career?

Programme Aims

KOLEJ ITA has analyzed the demand of both the Malaysian Government and the Nursing Board Malaysia (LJM) and have concluded that the Diploma in Nursing (Diploma Sains Kejururawatan) provides a comprehensive, modern and culturally relevant curriculum structure for nursing in Malaysia.

The programme aims to provide a professional education, which meets the requirements of the Nursing Board Malaysia (LJM), the Malaysian Qualifications Agency (MQA), and the requirements for the award of Diploma in Nursing from Kolej ITA. In sum, nursing Graduates will be **"Fit for Practice, Fit for Purpose and Fit for Award"**.

ITA Advantages

- Program is approved by the Ministry of Higher Education (MOHE) and recognized by relevant Government Agencies (i.e. Ministry of Health (MOH), Nursing Board of Malaysia (LJM), etc)
- The Diploma in Nursing's Outcome-Based Education (OBE) curriculum is approved by the Nursing Board Malaysia and Malaysian Qualifications Agency
- Program is registered and approved by PTPTN for funding (for qualified and eligible students)
- Graduate as Registered Nurse (RN)

Career Prospects

There are approximately 99,925 Registered Nurses in Malaysia (Health Facts 2016, Ministry of Health Malaysia). However, this ratio of 1:305 residents is far away from the target set by the World Health Organisation (WHO) that by 2020, a registered nurse is required for every 200 residents (1:200). In this respect, there is a requirement of having 174,000 Registered Nurses. This equates a demand of 8,000 nurses to be trained yearly.

Our Facilities

- Simulation Wards
- Skills Lab
- Library
- Auditoriums
- Lecture Halls
- Tutorial Rooms
